What is Shared Ownership?

Shared ownership offers a fantastic opportunity for you if you're trying to get a foot on the property ladder but can't quite afford to buy a home on the open market.

Depending on what you can afford, you can buy a share and then pay rent on the remaining share. You can purchase further shares as and when you can afford to up to a maximum of 100%.

You'll need to have a household income of no more than £80,000 (outside London), be over 18, live or work in the UK, not own any other property and be unable to afford to buy a home on the open market.

With shared ownership you benefit from lower monthly payments compared to buying a home outright, but you still get all the benefits of owning a new home.

If you think shared ownership could be the way to your new home, then contact the team at The Shared Ownership Shop. Our advisors will be happy to give you details of this home and any others we have that may suit your needs. Or if you would just like some advice on the Shared Ownership Scheme then we are here to help.
